

Practice Questions

1. Write a program to print all even numbers from 1 to 50.
2. Write a program to find the largest of three numbers.
3. Write a program to check if a number is prime or not.
4. Write a program to count the digits in a number.
5. Write a program to reverse a number.
6. Write a program to print multiplication table of a given number.
7. Write a program to find the sum of first N natural numbers.
8. Write a program to check if a character is a vowel or consonant.
9. Write a program to find the highest and lowest number in a list.
10. Write a program to check if a string is a palindrome.
11. Write a program to count vowels in a string.
12. Write a program to find the second largest number in a list.
13. Write a program to remove duplicates from a list.
14. Write a program to find the sum of digits of a number.
15. Write a program to find the frequency of each character in a string.
16. Write a program to calculate factorial using a function.
17. Write a program to print Fibonacci series up to N terms.
18. Write a program to check whether a number is an Armstrong number.
19. Write a program to merge two lists and sort them.
20. Write a program to check if two strings are anagrams.
21. Write a program to find the largest odd number in a list.
22. Write a program to replace all spaces in a string with hyphens.
23. Write a program to find the maximum occurring character in a string.
24. Write a program to check if a list is sorted or not. Write a program to print all prime numbers in a given range. Write a recursive function to find the sum of digits of a number.
25. Write a function to count how many prime numbers are in a list.
26. Write a program to capitalize the first letter of each word
27. Write a program to check if two strings have the same character frequency.
28. Write a program to find all duplicate elements in a list.
29. Write a program to print elements that appear only once in a list.
30. Print a diamond-shaped star pattern.
31. Write a program to find the most frequent element in a list.
32. Write a program to calculate the sum of all even-indexed and odd-indexed elements separately.
33. Write a program to calculate the difference between the largest and smallest number in a list.
